U Službenom glasniku br. 37/21 objavljen je novi Pravilnik o porezu na dodatu vrednost (u daljem tekstu: Pravilnik) koji predstavlja objedinjeni pravilnik koji zamenjuje 27 pojedinačnih pravilnika iz oblasti PDV koji su sada u primeni uz uvođenje određenih izmena, detaljnijih pojašnjenja i dopuna postojećih odredbi.

Novi Pravilnik o porezu na dodatu vrednost je stupio na snagu 22. aprila 2021. godine, dok je primena odredaba ovog Pravilnika odložena za 1. jul 2021. godine.

PRENOS CELOKUPNE ILI DELA IMOVINE

Naime, prema novom pravilu za poresko izuzimanje više ne postoji uslov da prenosiocu imovine u momentu prenosa bude onemogućeno da obavlja tu delatnost.

ZAMENA DOBARA KOJA SU U GARANTNOM ROKU

In the Official Gazette no. 37/21, a new Rulebook on Value Added Tax (hereinafter: the Rulebook) was published. It is a unified rulebook that replaces 27 individual rulebooks in the field of VAT that are now in force with the introduction of certain changes, more detailed clarifications and amendments to existing provisions.

The new Rulebook on Value Added Tax entered into force on 22 April 2021, while the application of the provisions of this Rulebook was postponed until 1 July 2021.

Below is an overview of the most significant changes and additions.

TRANSFER OF PROPERTY OR PART OF THE PROPERTY

At the inception of the application of this Rulebook, an amendment is adopted which stipulates that the business unit is considered to be the unit whose transfer enables the acquirer to independently perform the activity performed by the transferor of the unit. Namely, according to the new rule for tax exemption, there is no longer a condition preventing the transferor of the property from performing that activity at the moment of transfer.

REPLACEMENT OF GOODS IN THE WARRANTY PERIOD

- Replacement of spare parts or similar replacements as part of repairs or service of a particular good is not considered to be a replacement of goods in the warranty period.

- Dodatno, Pravilnik predviđa da se reklamnim materijalom smatraju sva dobra na kojima je odštampan logotip ili brend obveznika PDV koja obveznik PDV neposredno ili posredstvom trećih lica, besplatno daje različitim licima Trenutno važećim odredbama relevantnog Pravilnika nije propisana mogućnost davanja reklamnog materijala posredstvom trećih lica.

IZMENE I DOPUNE PRAVILA ZA ODREĐIVANJE PORESKOG DUŽNIKA ZA PROMET IZ OBLASTI GRAĐEVINARSTVA

- Novim Pravilnikom su propisani izuzeci kada se određeni radovi ne smatraju građevinskim radovima iako su u skladu sa Klasifikacijom delatnosti razvrstani u šifre delatnosti koje spadaju pod radove iz oblasti građevinarstva.
- Naime, u skladu sa novim Pravilnikom a nezavisno od vrednosti koja je utvrđena ranijim izmenama i dopunama Zakona o PDV, radovima iz građevinastva ne smatraju se:
 - Popravka opreme;

The current provisions of the relevant Rulebook do not prescribe providing advertising material through third parties.

AMENDMENTS TO THE RULES FOR DETERMING THE TAX DEBTOR FOR TRADE IN THE FIELD OF CONSTRUCTION

PORESKA OSNOVICA

Povratna ambalaža

- Odredbama novog Pravilnika propisano je da osnovica za PDV sadrži vrednost ambalaže (1) nepovratne odnosno jednokratne i (2) povratne ambalaže koju obveznik PDV zaračuvana primaocu dobara.
- Pravilnik predviđa da ukoliko se ambalaža ne vrati u roku predviđenom ugovorom, smatra se da je istekom roka došlo do novog prometa, odnosno do prometa povratne ambalaže a ne do izmene osnovice.

Porez na dobit po odbitku

- Pravilnikom je bliže uređeno da se porez na dobit po odbitku uračunava u osnovicu za PDV nezavisno da li je na dan nastanka poreske obaveze za PDV nastala i obaveza obračunavanja i plaćanja poreza na dobit po odbitku.

Procena osnovice

- Ako za promet dobara ili usluga, za koji je primalac dobara ili usluga poreski dužnik, nije poznat iznos osnovice na dan nastanka poreske obaveze, poreski dužnik utvrđuje osnovicu procenom (npr. na osnovu podataka o istim ili sličnim prometima dobara ili uslugama izvršenih u prethodnom periodu, na osnovu elemenata iz ugovora i dr.).

Withholding tax

- The Rulebook stipulates that withholding tax is included in the VAT base regardless of whether the obligation to charge and pay withholding tax arose on the same date when the VAT liability was incurred.

Tax base estimate

- If the tax base is unknown on the date when the tax liability was incurred with regard to the supply of goods and services whose recipient is the taxpayer, the taxpayer shall determine the base according to an estimate (e.g. based on data on similar or same supply of goods and services performed in the previous period according to contract elements, etc.).

MESTO PROMETA PREVOZNIH USLUGA KAO I USLOVI ZA PRIMENU PORESKOG OSLOBOĐENJA

- Pravilnikom je predviđena dopuna pojma prevoznika i organizatora prevoza, stoga u slučaju kada ima više učesnika u organizaciji jednog prevoza, smatra se da ima vise pojedinačnih usluga prevoza, te se isti poreski tretman primenjuje na sve promete.

VRAĆANJE DOBARA KOJIMA ISTIČE ROK TRAJANJA

Rok trajanja dobara

- U skladu sa Pravilnikom, dobrima kojima istice rok trajanja smatraju se dobra kojima je isteklo najmanje dve trećine roka trajanja, a do isteka roka trajanja ostalo najviše dva meseca.
- Propisano je da oba roka moraju kumulativno da budu ispunjena.
- Novim Pravilnikom je ukinut uslov da vraćanje dobara mora da bude predviđeno propisom ili ugovorom.

Pravilnik unosi pojednostavljenje odnosno ako se ispravka srazmernog poreskog odbitka vrši primenom procenta srazmernog poreskog odbitka od najmanje 98%, PDV obveznik vrši ispravku srazmernog poreskog odbitka do iznosa od 100%.

IZDAVANJE RAČUNA

- Pravilnikom se predviđa da ako se račun izdaje na dan kada je izvršen promet dobara tj. usluga račun koji će biti izdat za taj promet ne mora da sadrži podatak o datumu prometa dobara i usluga.
- Predviđena je izmena i dopuna propisa koji se odnosi na promet dobara i usluga, tako da ako se naknada plaća u stranoj valuti, iznos osnovice i iznos PDV tj. iznos naknade za promet dobara i usluga moebiti biti iskazan u stranoj valuti dok s

THE PLACE OF SUPPLY OF TRANSPORTATION SERVICES AND TAX EXEMPTION CONDITIONS

- The Rulebook envisages an additional explanation of the terms ‘carrier’ and ‘transportation organiser’. Therefore, in case several participants organise one transportation service, it is deemed to be several individual transportation services, and thus, the same tax treatment is applied to every supply.

RETURN OF GOODS WHOSE VALIDITY PERIOD EXPIRES

Validity period of goods

- According to the Rulebook, goods whose validity period expires are such goods whose two-thirds of the validity period have expired and two months have left until the expiration of the validity period at most.
- It is stipulated that both deadlines need to be cumulatively met.
- According to the new Rulebook, the condition envisaging that the return of goods has to be prescribed by a regulation or a contract has been removed.

CORRECTION OF PROPORTIONAL TAX DEDUCTION

The Rulebook brings simplification, i.e., if a proportional tax deduction is corrected by applying a percentage of at least 98% of the proportional tax deduction, the VAT payer shall correct the proportional tax deduction up to the amount of 100%.

INVOICE ISSUANCE

- According to the Rulebook, if an invoice is issued on the date when goods or services are supplied, the invoice that will be issued for such supply does not have to include the date of the supply of goods and services.
- The regulation related to the supply of goods and services has been envisaged to be amended. Hence, if the fee is paid in a foreign currency, the tax base and VAT and/or the fee for the
